

Engineering and construction contracts workshop for attorneys

De-mystifying and explaining the principles of engineering and construction contracts

About the workshop

It is well known that engineering and construction contracts are **a specialised field of legal practice**. Drawing on his experience as an attorney and as a senior legal adviser for many years to a major listed South African manufacturing group of companies, and now as a presenter of seminars for Binnington Copeland & Associates in the South African engineering and construction industry, Hugh Lane will de-mystify many of the concepts peculiar to construction law and, in a practical way, assist practitioners avoid pitfalls for the unwary. This workshop deals generically with engineering and construction contracts, and does not focus on any particular standard-form construction contract.
